A HEALTH PROBLEM REGARDING PIZZA AND MUST ORDER OTHERWISE, CHECK
WITH THE CLUB PREZ. (diets don't qualify)
PAY AT THE DOOR WHEN ENTERING AND PLEASE DON'T HASSLE THE MONEY
COLLECTOR WITH "I just came to drink beer" ROUTINE.....

The intention of this get-together was originally to repay those of you who did such a GREAT job at the convention. It was intended, also, to make it a FREE evening so far as Pizza is concerned. What happened is that we had some heavy expenses during the past 2 months and most of the 'convention money' had to bolster the day to day treasury. Mainly to be sure we have enough to get us through the annual Christmas party. The INTENT is still there. The convention has benefitted us to a larger part than most realize and it is to this end that we decided to go ahead with the 'Pizza Party' in spite of having to charge a minimal amount. Hats off to those of you who had the time and energy to make the OREGON STATE HAM CONVENTION such a super successful event!!!! EVERYBODY--come on out and have a good time. If you couldn't or wouldn't contribute time please don't worry about it. This is a CLUB function and YOU belong.....CHEERS!

NOMINATING COMMITTEE: Dave Parker, W7LJN, being our past Prez, is given the task of digging up possibles for 1986 club officership--according to By-Laws! He must include two others to assist him in this quest. If you desire to run for office in 1986 and not rely on friends to nominate you, it is suggested that you call Dave and throw in your hat. Keep in mind that the 'Nomination' group numbers 3. A small minority! That is why we open nominations from the floor at the November meeting. Feel free to nominate who you wish but make sure that person is willing to serve! A copy of the By-Laws and Constitution are available from the secretary for those of you who want to be informed as to how our elections are handled. As always, choose wisely. What you want is what you get.....

GET WELL QUICK ETC.. Our FIELD DAY host, Harold Maiken, had a problem with a stairway in his home and is now laid up, so to speak. A pile of get well cards are in order. Harold and family have been VERY good to our club not only with FD but our campouts as well. It seems he took a step where there was none and went down half a flight. If you would like to show your concern and care for such a fine gentleman, address your response to: Mr. & Mrs. Harold Maiken--Box 134 Keasey Rt.--Vernonia, Ore., 97064. In the form of a newsletter, cold as it might be, we wish Harold the very best and a QUICK recovery.....

What English word is invariably pronounced wrong by students at Yale??

HI! WHERE HAVE YOU BEEN?

It has been a long time since we published a list of 'the seldom seen' auld guard of the club. It seems as though there have been way to many lately. It could be a result of such a super summer or it might be just a result of burnout. Anyway, when the club was much smaller it was a real snap to put together a list now and then. It usually brought a few people out of the woodwork so lets see what it might do for our October meeting. Listed below is a random sampling which was lifted from our roster. It is just the result of a quick dash down the line so if you feel slighted because you weren't mentioned consider that you have been away so long you are forgotten!!!

KA7AHU WB7BCW N7BSB N7BUM KB7CC N7CIL W7CLU N7CME
KC7CN KA7DEW N7DJE WA7DKF N7DNN N7DZA KØEKP KA7FDQ
WA7FNO N7GCL WA7GFE KA7GHR KQ7I KZ7I W7JDT KA7KDF
KA7KKZ KA7KNG KA7LFL W7LYK K7MCK W7NDH W7NI K7NWM
K7PSD KA7PWN WB7PXZ WA7QBI KC7QV KC7RC KD7SN KA7SSX
K7TGD KA7UFG KD7US KD7UZ K7VDQ WB7VWX WB7VZO WB7WHO
NB7X KC7XB WA7YSU KR7Z W7ZVC and others.....

Well, what do you think? Not going to put my thoughts here as you hear too much of them anyway. Hope to see some of you people and I am sure there are others who miss you. You DO have friends in the club don't you? Make October the month to 'come home'. It only takes about two hours of your time and it might just be fun...

ADVERTISING \$\$\$\$\$ ADVERTISING \$\$\$\$\$ ADVERTISING \$\$\$\$\$ ADVERTISING \$\$\$\$\$

What will it take to get the newsletter back to the customary size? If we could get 10 members who have something to gain by advertising, to make out a check for \$48.00, which would pay for one year of business card advertising, we would be back in business. Been thinking about it? Do it now! Save the hassle of monthly billing and invoicing and take out a full year and make it easy on yourself and the treasurer. Got a product or service you are proud of? Are you a Vet, a CPA, an attorney, a painter, an MD of any sort, a consultant, car salesman, travel agent, retail store owner??? The cost per impression is .07 per month. This is not taking into consideration that our rag is on bulletin boards of several local businesses and that it goes out to a number of local clubs. Total cost would be closer to $\frac{1}{2}$ cent!! Try that with a neighborhood flyer or your local newspaper! In many business situations, one new customer would more than pay for your advertising. By all means, help yourself FIRST and if you feel that helping your club, meaning 250 other hams, is important as well, help yourself first AND secondly. \$4.00 a month is one BLT lunch!

For the many non-business people in the club, be reminded that the ads we are talking about for club members are a low cost \$4.00 per month. Ads for non-club businesses are \$10.00 per month. Most of us have a friend or two who are business people. Given three or four added outside advertisers we could not only pay our postage costs but part of the copying cost as well. If YOU are willing to put a little effort into making all of this cost problem a thing of the past, I am more than willing to handle the six to eight hours additional work that six more pages requires.

For commercial advertising please call Jeff Schultz, KQ7I at 245-6303. (for club FREE ads call Jim Ziegler, KA7TAC at 246-2539.)

NEW MEMBERS

Welcome to Bill Long, N7DJW. Bill and wife Faith reside in SW Portland. He lists his occupation as 'computers' but gives no info as to hobbies other than hamming. Bill is not an ARRL member but says he is considering it. SUPER! The second newcomer isn't so new. It is Dave 'retread' Norton, AB9O. Dave used to be a member but due to some problems along his way, he had to drop out of the club. Dave and wife Brenda, N7HIM, reside in Camas which means a looong drive to meetings. Dave enjoys packet radio, sailing and DX. He IS an ARRL member. A BIG WELCOME to you guys and hope you enjoy the club and its members. The club now numbers an even 250. Not quite back to where we were last year at this time but VERY close. Ain't hamming fun.....

NEW CONSUMER GADGETS...

●Cortrex Industries has a 2" square radio transmitter (\$130) that is worn on a child's belt. An alarm sounds if the child wanders more than 100 feet. A panic button can also be pushed by a threatened child.

●Microprocessor based Digital TV has arrived. Panasonic, RCA, Toshiba, Sony, Mitsubishi, Zenith, Quasar... all have it. You'll be able to watch two screens at one time. One will be superimposed in a corner of the other. User controlled TV freeze and zoom-in action will be possible... along with storing the on-screen picture for later printing!

●Epson is set to release a Wrist Computer. The RC-20 has a 4-line by 7 character liquid crystal touch-screen display, 2K of RAM and a Z-80 compatible chip. Also functions as a watch.

W5YI

●Starting this month, at least one Las Vegas casino will have slot machines that take special debit cards! Gambler's will buy a plastic card with a preset dollar amount magnetically encoded on it. The slot machines will automatically subtract a preset sum every time you pull the handle! The cashless slots will eliminate the single most expensive thing in a casino... cash security and handling!

●A Japanese cosmetic company has developed a novel computerized makeup simulator! Women can now see what they will look like before changing to a "new look." A video camera projects a customer's image on a screen and an "electronic paintbrush" shows different makeup, hair style, and color combinations without anything ever touching her face. When the right combination is found, she simply buys the products the computer indicates!

A TRIBUTE TO KA7RNO

Once in a great while we honor a member because of some significant contribution to amateur radio. In the same vein, we give recognition to those who make a boo-boo! In the case of boo-boos, we can only hope that the person mentioned is a good sport and will go along with some ribbing. An eye for an eye sounds great in the Bible but it hurts! Anyway, Gordon, KA7RNO, has two shots coming. Gordon is a regular check in to the ARES net which is held 7 nites a week on 147.32. He has not been heard yet with a decent signal. It is as if he looks for ways, in his basement, to degrade the signal of his handheld. If so, he is extremely adept and is to be congratulated! If that is not the case would someone PLEASE loan him an outdoor antenna so that he can be heard. Nothing expensive. Just the usual three or four dollar homemade job would do fine. The second 'cheap shot' is that not too long ago, shortly after getting his general class license, KA7RNO was heard using the word "NEGATORY" on the same net. We all know that the died in the wool chicken banders have prior rights to the phrase but poor Gordon didn't know that it is verboten to hams. Not even extra class licensees! We should have some forgiveness in our hearts as the general class license manual makes no mention of 'NEGATORY'. Not even the now defunct Bash books.

Coaxial Switch for routing up to 4 antennas

The HD-1234 is designed to switch one RF source or receiver to any one of four antennas, or RF loads while grounding the unused connectors. It has a power handling capability of 1000 watts (2 kW PEP) with a maximum 1.1:1 SWR to 250 MHz. A mounting bracket is included that allows you to conveniently hang the Switch on the side of an equipment enclosure, onto a desk, or on any wall.

CALL CHANGES & UPGRADES

Got three new uspsy grades this month. Not too bad for such a small club! Gordon Bishop, KA7RNO, got his general class nailed down. A VERY big hurrah to Mark Cotter, KA7OMW, for ACING the advanced class test!! Not even one mistake. Incredible, at least in the eyes of someone so lousy at math; such as I... The third happy ham is Randy Sorenson, N7DJE, who went to extra and a call of NQ7N.

RAT-A-TAT-TAT

STOLEN RADIO REPORT: Will try to continue it next month.

BVTN. DAYS AND ARTQUAKE: Next month for outcome news.

NAME BADGES OR JACKETS: Wear ID to meeting and collect an extra ticket on the drawing. Eat din-din and ditto!

NOMINATING COMMITTEE: Want to run for office in 1986?? Call the nominating committee chairman, W7LJN.

AD HELP: Thanks to Stan, KX7Y, for ppd. six months ad!

HR ARRL BULLETIN NR 78 FROM ARRL HEADQUARTERS

NEWINGTON CT SEPTEMBER 18, 1985

TO ALL RADIO AMATEURS BT

IN AN FCC NEWS RELEASE DATED SEPTEMBER 18, FCC ANNOUNCED FAVORABLE ACTION ON PRB 1, THE LEAGUES REQUEST FOR A DECLARATORY RULLING PREEMPTING LOCAL ANTENNA ORDINANCES. IN THE SEPTEMBER 16 ACTION, FCC DECLARED A LIMITED PREEMPTION OVER STATE AND LOCAL REGULATIONS, STATING THAT SUCH REGULATIONS WHICH PRECLUDE AMATEUR RADIO COMMUNICATIONS ARE IN DIRECT CONFLICT WITH FEDERAL OBJECTIVES AND MUST BE PREEMTED. FCC DECLARED THAT LOCAL ANTENNA REGULATIONS MST REASONABLY ACCOMMODATE AMATEUR RADIO COMMUNICATIONS AND REPRESENT THE MINIMUM PRACTICABLE REGULATIONS TO ACCOMPLISH THE PURPOSE OF THE LOCAL AUTHORITY. SEE THE ARRL LETTER AND QST FOR FURTHER DETAILS.

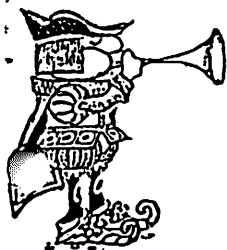

HR ARRL BULLETIN NR 79 FROM ARRL HEADQUARTERS

NEWINGTON CT SEPTEMBER 18, 1985

TO ALL RADIO AMATEURS BT

FCC HAS AMENDED THE AMATEUR RULES TO ELIMINATE THE 30 DAY WAIT BEFORE AN APPLICANT FOR AN AMATEUR EXAMINATION CAN RETAKE A FAILED EXAMINATION ELEMENT. IN A SEPTEMBER 18 NEWS RELEASE, FCC SAID THERE WAS NO PERSUASIVE EVIDENCE THAT APPLICANTS WHO WAIT 30 DAYS BETWEEN TESTS WERE BETTER PREPARED FOR REEXAMINATION THAN THOSE WHO WAITED A SHORTER PERIOD. RESPONDING TO COMMENTS THAT THE VOLUNTEER EXAMINER COORDINATORS WOULD BE BURDENED BY ELIMINATION OF THE WAITING PERIOD, THE COMMISSION NOTED THAT VECs ARE NOT OBLIGATED TO GIVE EXAMINATIONS ON DEMAND OR IN ANY WAY TO ALTER THEIR PRESENT PROCEDURES. FCC SAID VECs ARE ALREADY REQUIRED TO MAXIMIZE THE NUMBER OF DIFFERENT EXAMS IN USE AND TO CHANGE THE QUESTIONS USED FREQUENTLY. FCC WILL CONTINUE TO REQUIRE PUBLIC ANNOUNCEMENTS OF ALL EXAMINATIONS. SINCE THE NUMBER OF CANDIDATES AT ANY ONE EXAM SESSION MAY BE LIMITED, FCC EMPHASIZED THAT THE ANNOUNCEMENTS SHOULD ALERT THE PUBLIC TO ANY SUCH LIMITATION AR

OTVARC FALL HAPPY HOUR CONTEST

As Fall is upon us, so is our annual Happy Hour Contest. Due to popular demand we have expanded the contest to two hours; with some special twists. The Contest will be on Thursday, November 14, 1985 from 7:00 to 9:00 PM on the Two Meter band. Frequencies will be from 144.500 to 145.500 MHZ simplex. No repeater contacts will be allowed.

The point schedule this year should provide some interesting results. All contacts the first hour will count as a double multiplier (2 points) while those in the second hour will be worth one point. However, we are throwing in a prefix multiplier for the whole contest. Details and scoring will be provided next month.

Hope to see all of you next month during this most exciting event.

Jeff, K7JF

CLUB JACKETS

Kathryn Andrews, KA7UMB, our club jacket committee of one, has undertaken to streamline and speed up the process of getting jackets to the membership. There has, in the past, been a long, long wait involved in getting coats ordered and in the hands of those who have waited patiently. Sometimes not so patiently! We had been told that to place an order we had to have 12 orders. The truth is that we only need THREE! Kathryn says that after any meeting where she has the required number of orders she will immediately turn in the order and will make every attempt to deliver the jackets at the next months meeting. One thing that will be done to make her job easier is to collect for jacket orders in ADVANCE! A problem in the past has been one of delivery. You order a jacket and then don't show up at a meeting for several months. The club has had to pay for it, the person responsible has had to personally deliver it, on occasion, and in addition to those problems, we have had a few skip out and leave the club holding the expense. SOOO! We now have a jacket personess (hi) who takes the job seriously. No more waiting, no more hassles, no more screwups. The only thing Kathryn can't do is make everyone love red. Sorry!!!

YOUR JACKETS ARE READY

While we are on the subject of jackets, Kathryn has, in hand, the finished product for John Conley, K7DMM and Dick Platt, W7VKB. If either of these two gentlemen would like to pick up their coats posthaste, give Kathryn a call at 629-5676 or during working hours as 796-5101. Bring money.....

HEY PORTLAND HAMS---WAKE UP!!!!

Tuesday, Sept. 17, the Portland Planning Commission held an evening meeting devoted entirely to adopting several new restrictive rulings against the broadcast industry and, as usual, amateur radio was included in the process. Due to some quick work by AL7W and K7RUN, a meeting was called to figure a way to combat possible disaster. The ARRL volunteer counsel, Stan Weinstein, KX7Y, was called and he also attended the meeting. To make a long story short, came meeting time and all were ready. Another attorney as well as NB7X were prepared to protest. Things went well and at the end, after some bad comments were made by a non-ham commercial operator, about hams, it was felt that Stan should make a final plea which was possible only because NB7X relinquished his turn in favor of Stan. Some great closing statements and after a 15 minute recess the Commission reconvened with no public allowed to make further comments. The Commission voted to EXCLUDE from rule making a clause which would have restricted towers to a height of 34 feet. There is much more to this but until the adopted rulings are accepted by the City Council, this should suffice. What is distressing is I called 15 of our members to alert them so they could show up and give support and ONE showed. Thanks to four hams who got up and spoke and in a smaller vein, the five or six spectators, it is very possible that the hams of Portland will have NO restrictions on towers. Hats off to Lea Ball, John White, Bear Mann, the unnamed attorney and especially to our ARRL Counsel attorney, Stan Weinstein. A super job in a VERY short time. When the matter comes before the City Council, it would behoove as many of you who live in Portland, as possible, to turn out and support. I am not going again. I live in Hillsboro. I gave and so did a few others who live elsewhere. It's YOUR turn...

NORTHWEST AMATEUR RADIO COUNCIL

Volunteer Examiners Committee

Portland, Oregon

is sponsoring Amateur Radio License Exams for Technician, General, Advanced and Extra at Portland Community College (Sylvania Campus) in the Science Technology (Bldg ST), at 12000 SW 49th, Portland, Oregon. Exams will be held the FIRST SATURDAY of EVERY MONTH!

TO REGISTER:

1. Complete FCC Form 610 (be sure to indicate the highest Class of License you will be attempting!)
2. Attach a copy of your Amateur Radio License (if applicable).
3. Make a check or Money Order for four (4) dollars payable to ARRL/VEC.
4. Mail all three of these to:

Randy Cobb/VE Exams

P.O. Box 5097

Aloha, Oregon 97006

5. DEADLINE - Registrations must be received 30 days prior to taking the Exam.

FCC INVESTIGATING AMP SUPPLY

We understand that the FCC's Norfolk District Office is investigating the Amp Supply Company of Raleigh, North Carolina, for violations of the Commission's marketing rules on linear amplifiers.

Allegedly Amp Supply sent out some unsolicited direct mail brochures promoting their LK-800 Series Linear Amplifiers. This model, supposedly "for Export only," amplifies all frequencies from 3 to 30 MHz including the banned 10 meter band. Amp Supply Company advertises their LK-500Z"B" amplifier monthly in QST, but this model covers only 160 to 15 meters.

The FCC prohibited marketing of linears that had the capability of amplifying the 11 meter (27 MHz) CB band back in 1978. Specifically amplifiers could not amplify 24-35 MHz. (Docket 21116, adopted June 28th, 1978.) The ban on "manufacture, sale, lease (including advertising for sales or lease)" was to be in effect for two years, but was later indefinitely extended.

Amp Supply is headed up by Denny Had, K8KXX. His previous company, Dentron Radio Company, Inc., (also in the amplifier business) filed for bankruptcy on June 25, 1981.

W5YI

MEETING PROGRAM

Got a wee bit of a technical program for the club this month. Light technical! Mr. Russ Markwart, K7VNS, is a regional engineer for Champion Spark Plug and has done some extensive research on the problem of automotive RFI. Both with cars and on trucks. He will explain the numerous causes of such grief to mobile operators and suggest hints on prevention and permanent cures for each special case of interference. Much has been written on the subject and in many cases, authors differ on what to do to silence the offending whine, static and etc. producer. Perhaps Mr. Markwart will furnish us with the "final solution". The only way to find out is to attend the meeting! Hope to CU there....
(THE TALK WILL BE BACKED UP WITH SLIDES.)

WHAT'S GOING ON IN.... IN ELECTRONIC CONSUMER GOODS

Make no mistake about it. Video is very big business! Every 24 hours, American backyards sprout another 1,000 satellite TV dishes... and living rooms sport another 17,000 new videocassette recorders. The EIA (Electronic Industries Association) says that 30% of the nation's homes will be renting movie cassettes and taping movies by year end.

Home video is the big gun! In 1985 an estimated 11.5 million VCRs will be sold... up from 805K in 1980. (80% of the business is VHS format. Forget Beta. Eventually 8-mm will be big.)

Be on the lookout for interactive VCR tapes! By early next year we will have video programming that will allow viewers to participate in the action on screen... even predict your own movie ending! Educational videos will allow students to actually "talk" via a hand-held controller to the cassette taped instructor. Interactive video programming can also be transmitted by satellite or through land-line cables! Book publishers are turning to video books.

The next video biggie will be cameras that allow you to record your own home movies! About 500K units will be sold this year. Sony has a new 2-lb (\$1800) camcorder called the "Mini-8". Sony feels that the 8-mm format will overtake the 1/2" format in about ten years.
